EXECUTIVE SUMMARY

As a graduate, in Computer Science I have gained proficiency in languages like C, Java and Python. Additionally, I have also expertise in Front-end tools such as HTML and CSS. I am ready to contribute my problem solving abilities to projects, within the dynamic field of computer Science. And Eager to apply my skills and knowledge in a practical setting to contribute to the growth and success of an innovative organization.

EXPERIENCE

Junior Software Developer Course

15-07-2023 - 15-10-2023

Rooman Technologies | Bengaluru.

- In this course, I immersed myself in comprehensive web development training, mastering technologies like HTML, CSS, and JavaScript. Including database connectivity, where I successfully implemented MySQL connections, along with website cloning and proficiently deploying them on platforms like GitHub.
- Additionally, I explored the fundamentals of Core Java, covering essential concepts such as Object-Oriented Programming (OOP), the Collection Framework, Exception Handling, and Multithreading.

Artificial Intelligence Intern

25-08-2022 - 25-09-2022

Techno Fly Solutions | Bengaluru.

- Proactively solve problems, and learn from senior AI professionals.
- Documented processes and outcomes, enhancing organizational knowledge and contributing to internal resources.
- Gained insights into industry trends and emerging technologies within the Artificial Intelligence domain.

PROJECTS

➤ EDUVISTA1.0-"The Future Way of Learning" (ARVR).

- Being a Team Leader was one of the Prominent Position I got, I was everywhere helping at every part, from A-Framework, UI/UX design to Three.js framework, SketchFab API's, 3D modelling as well as maintaining the web applications potential standards to be held high.
- Developed an interactive web application enabling users to seamlessly access 3D models and immersive virtual and augmented environments.

<https://muskanfathima.github.io/Eduvista1.o/>

➤ STUDENT DATABASE MANAGEMENT SYSTEM.

- Developed a comprehensive Student Database Management System using Python as the backend and XAMPP server.
- This innovative web application is organizing and stores student information encompassing personal details like name, email, contact, date of birth, and academic specifics such as enrolled stream. Additionally, the system maintained attendance records, providing a platform for data management.

SKILLS

- C, Python.
- Web Development.
- Data Structures
- AWS(Ongoing)
- Core Java.
- SQL/MySQL.
- Mule Soft
- GitHub
- HTML, CSS, JavaScript
- OOPS.
- API Development and Integration
- Hacker Rank.

EDUCATION

- **Computer Science Engineering** **2023**
ACS College of Engineering
8.5
- **2nd PUC** **2019**
MMU Pre-University College
80%

CERTIFICATIONS

- Completed a 3 months course on "**Junior Software Developer**" using **Core Java** at Rooman Technologies.
- Secured certification on online skill development program on "Cyber security and Ethical hacking" at Tequed labs.
- Secured certification on completion of "Online **C** test" conducted by the spoken tutorial project **IIIT Bombay**.
- Secured certification on completion of "Online **HTML**" conducted by the spoken tutorial project **IIIT Bombay**.
- Secured certification on "**Basics of python**" from **Infosys springboard**.

ACHIEVEMENTS

- Successfully completed all Core **Java** Challenges on HackerRank, demonstrating proficiency in fundamental **Java concepts, Data Structures** and problem-solving skills.
- Successfully completed the assessment for **Software Engineer Intern Certificate** on HackerRank, demonstrating proficiency in coding skills and problem-solving abilities.

STRENGTHS

- Good Communication Skill.
- Team Player
- Willingness to Learn.
- Problem-Solving Skills

LANGUAGE

- English (Fluent).
- Hindi (Fluent).
- Kannada (Fluent).

DECLARATION

I hereby declare that the above details furnished are true to the best of my knowledge.
